Valve Services

Mirai Valve Services is an industry leading servicing of world class industrial valves, including Safety valve, Ball and Globe pressure relief valve products and more. We are certified to repair all brand and models of safety valves whether they are in valve Inspection, Testing or Maintenance for all industry.

Our testing facilities include Hydrostatic and Pneumatic Testing method. Test stand for pressures up to 30,000psi. All of our reference standard are equipped with highly accurate calibrated digital pressure gauges which capture each set pressure test point.

Complimenting our valve services, Mirai also offers repair and testing for all type of low pressure relief valves, such as: low pressure pilot valves and pressure / vacuum tank vents and tank blanketing valves. Our venue provides full repair servicing to all type of Pressure Relief valve including Safety valves and is equipped with the capabilities to repair and test/calibrate Ball valves, gate valve, relief valve, Manual valves, Plug valves and Pneumatic actuated valves.

Type of Valves :

- Repairs to all makes and models of pressure relief safety valves
- Full disassembly and verification of critical components
- Lapping , Polishing of metal seating components
- Sandblasting and Painting of the valve bodies
- Re-Certification Testing for valves in pop test
- In-Situ and Mobile Onsite
- Expediting Services onsite job for plant shut down
- PRV and Safety Relief Valve Testing under Singlas Certification

PERFORMANCE

MIRAI CURRENTLY HEADING

Industry leading experts in Process Control and Instrumentation

We align our efforts to our philosophy of strength through partnership in 3 ways:

- 1** Our client-centered approach means that we commit to providing cost-effective solutions to your unique industrial challenges. We guarantee that our clients have access to high quality testing for your instrument.
- 2** We strive to be a supportive channel partner to each of our customer, understanding their equipment and solutions through continued to use our valve services. We do the best to provide world class services given to our customer.
- 3** We rely on the integrity of our team to deliver consistent excellence. We work together to provide on-time delivery, personal assistance, educational services and expert application engineering.
